HEALTHCARE

把美好凝聚在每一个医疗空间里

敬请注意：本图册所有产品图片表示之纹理、物料及颜色与真实产品可能稍有偏差，具体产品以实物为准。

Please note that the textures, materials, and colors represented in all product images in this brochure may have slight deviations from the actual product. The specific product is subject to the actual product.

CONSOLIDATE BEAUTY IN EVERY MEDICAL SPACE

## > Create a comfortable medical space 创造舒适医用空间

现代的医院空间环境要素中需要功能性的医用家具，针对医院的环境，赛福德公司根据先进的设计理念，研究各医院科室的特殊性，在环境设计方面突出安全、便捷、人文和绿色，医疗家具可通过划分、界定丰富整个医院的室内空间，无论从医院空间的环境设计及医疗家具的设计，成功的设计在于相辅相成，由点及面的互相呼应。

Modern hospital space environment elements need functional medical furniture. In view of the hospital environment, according to the advanced design concept, SAFETY Medical studies the particularity of each hospital department, and highlights safety, convenience, humanity and green in environmental design. Medical furniture can enrich the interior space of the whole hospital through division and definition, and can not follow the environmental design and management of hospital space In the design of medical furniture, the successful design lies in complementing each other and echoing each other from point to surface.

# 针对医院的特殊环境， 我们的所有材料都进行了升级。

IN RESPONSE TO THE SPECIAL ENVIRONMENT OF THE HOSPITAL,  
ALL OF OUR MATERIALS HAVE BEEN UPGRADED.

## 面料 / Fabric

★ 具有卓越的耐腐蚀、耐紫外线消毒及抗老化性能 **Excellent corrosion resistance, UV disinfection resistance and anti-aging performance**

满足医院院感要求的耐医用清洗剂、消毒剂的腐蚀（戊二醛、苯酚浓缩液、漂白液、季铵氯化物 + 甲醇、异丙醇、双氧水、安得福等），QUV 大于 650 小时，具有卓越的耐紫外线消毒及抗老化性能。

The corrosion resistance of medical cleaning agents and disinfectants (glutaraldehyde, phenol concentrate, bleach, quaternary ammonium chloride+methanol, isopropanol, hydrogen peroxide, ANDEFU, etc.) that meet the hospital's hospital sense requirements is more than 650 hours, and has excellent ultraviolet disinfection resistance and anti-aging performance.

★ 高耐磨耐用性 **High wear resistance and durability**

面料耐用年限大于 3 年，耐磨耗性能马丁代尔达到 10 万次以上，非常适合医院等公共场合的高频次使用密度。

The fabric has a durability period of more than 3 years, and the wear resistance of Martindale reaches over 100000 times, making it very suitable for high-frequency usage density in public places such as hospitals.

★ 防霉抗菌抗有害微生物抗病毒性能 **Anti mold, antibacterial, anti harmful microorganisms, and antiviral properties**

符合 ASTM D4576 和 ASTM G21-13 的 0 级标准，对于冠状病毒冠状病毒的存在减少 90%以上，对冠状病毒的活性降低 99.9% 对于金黄色葡萄球菌（MRSA），大肠杆菌和肺炎克雷伯菌具有 99%灭杀作用。

Conforming to ASTM D4576 and ASTM G21-13 level 0 standards, it reduces the presence of coronavirus by more than 90%, and its activity against coronavirus by 99.9%. It has a 99% killing effect on Staphylococcus aureus (MRSA), Escherichia coli, and Klebsiella pneumoniae.

★ 具备 100% 防水防渗透能力 **Equipped with 100% waterproof and impermeable ability**

实验静水压测试达 500mm 以上。

The experimental hydrostatic pressure test reaches over 500mm.

★ 出色的抗污易清洁能力 **Excellent anti fouling and easy cleaning ability**

对于医院环境中的污染物具有优秀的易清洁性能，符合 AATCC 130-2010 标准。

It has excellent easy cleaning performance for pollutants in the hospital environment and meets the AATCC 130-2010 standard.

## 海绵 / Sponge

★ 采用 40° 以上高密度、高回弹原生切割棉，软硬适中，回弹性好，久坐不变形。

Made of high-density, high rebound native cutting cotton with a temperature of over 40°, with moderate softness and hardness, good resilience, and no deformation after prolonged sitting.

## 木材 / Wood

★ 内框架：采用优质刨方，无树皮、无结疤，干湿度控制在 13° 以下，不易发霉生虫，结实耐用。

Inner frame: Made of high-quality planing, without bark or scabs, with dry and humidity controlled below 13°C, resistant to mold, sturdy and durable.

★ 外框架：采用进口白蜡木，木纹清晰，结疤少。五底三面油漆工艺处理，表面光滑无气泡。

Outer frame: Imported white wax wood with clear grain, Five bottoms and three sides paint processing, with a smooth surface without bubbles.

## 五金 / Hardware

★ 优质冷轧钢管、板，表面静电粉末喷涂，附着力好，耐腐蚀、耐磨度高。

High quality cold rolled steel pipes and plates, with electrostatic powder spraying on the surface, good adhesion, corrosion resistance, and high wear resistance.

★ 304 不锈钢，表面抛光拉丝处理，耐磨、耐腐蚀。

304 stainless steel, surface polished and brushed, wear-resistant and corrosion-resistant.

# 引领健康生活，共创美好未来

这是奥彬·瓴杰作为商业机构存在的意义和动机，也是奥彬·瓴杰必须承担的责任和义务。

*This is the significance and motivation of Aubin Lingjie's existence as a commercial institution, and it is also the responsibility and obligation that Aubin Lingjie must bear.*

我们将在保护生态、维护人类健康、创造优品之间寻找最佳的平衡点，持续为客户提供符合时代和自身需求的产品，从能源、新型材料、智能、回收利用、社会责任等多个维度进行不断探索，创造可持续的良性循环发展模式。

We will find the best balance between protecting ecology, maintaining human health, and creating high-quality products, continuously providing customers with products that meet the needs of the times and ourselves. We will continuously explore from multiple dimensions such as energy, new materials, intelligence, recycling, and social responsibility, and create a sustainable and virtuous cycle development model.

以科技为本，为人类健康而奋斗！

## 全科诊疗椅

GENERAL PRACTICE MEDICAL CHAIR

医疗活动不再是单纯的看病，而是渗透着人文医学、生理心理的全方位治疗。从国际化院感风格着眼，奥彬·瓴杰在室内延续建筑的风格与元素，并适当加入设计理念的文化符号，营造一个协调统一，亲近和谐又不失人文关怀的现代化医疗空间。

Medical activities are no longer just about seeking medical treatment, but a comprehensive treatment that permeates humanities, medicine, physiology, and psychology. From the perspective of international architectural style, Aubin Lingjie continues the architectural style and elements indoors, and appropriately incorporates cultural symbols of design concepts to create a modern medical space that is coordinated, harmonious, and humane.

GLITTER

Integrating multiple functions such as diagnosis and treatment, treatment, infusion, accompanying care, transportation, etc., one product solves multiple needs and provides a one-stop solution for special departments (wards) of hospitals, suitable for special needs (wards).

**格力特 (Glitter) 全科诊疗椅**

集诊疗、治疗、输液、陪护、转运等多种功能于一体，一个产品解决多种需求，为医院特殊科室（病房）提供一站式解决方案，适用于特需（科室）病房。

# 格力特 (Glitter) 101 手动版

## 针对特需患者设计：

- 1、中控刹车机构，一键控制四轮锁止，转运患者时操作轻松简便。
- 2、靠背可躺 160°，脚踏可伸出放平，可满足医生诊疗需求。
- 3、通过控制扶手底部两侧机构可使整个椅身成负角度（脚部高于头部）形态，便于医生处置患者腿部伤口。
- 4、左侧扶手可放倒，方便医护人员协助患者上下座椅。
- 5、座椅前方下端有可伸缩踏板，在转运病人时可拉出放脚；可满足患者诊疗、一般伤口处置、活动、输液、转运及家属陪护等多种需求，适用于特需病房等。

## 操作流程：

踩下此处红色按钮（踩绿色松开刹车）即可刹住 4 个轮子，以固定椅身

向后转动右侧手柄打开脚踏（向前则收回脚踏）

掰动此机构将靠背放倒至 170°（再次掰动则复原靠背）

①

②

③

踩下此踏板椅身处于负角度形态（再次踩动则复原）

向后拉出此开关打开左侧扶手便于医护人员协助患者上下座椅

此把手用于推动座椅，操作轻松简便

在椅身回位时可拉出此踏板便与患者放脚

## 高效有序的诊疗服务

为了提高医护的诊疗效果和患者的服务体验，以人为本的设计理念，将多种特色、多样化的医疗家具融入环境之中，采用灵活多变的医疗家具建立一个环境整洁、布局合理、作业高效的服务体系，提高医患满意度，增强医护效率。

## EFFICIENT AND ORDERLY CARING SERVICE

In order to improve the diagnosis and treatment effectiveness of medical care and the service experience of patients, the people-oriented design concept integrates various unique and diverse medical furniture into the environment, and adopts flexible and variable medical furniture to establish a clean, reasonably arranged, and efficient service system, improving doctor-patient satisfaction and enhancing medical efficiency.

LJ-FY0088

## 候诊区（一次、二次、三次候诊）

WAITING AREA (PRIMARY, SECONDARY, TERTIARY)

候诊区为病人入院求诊时提供等候和休息服务，一般设置在大厅处或收费、挂号附近。作为患者入院候诊时的第一接触，不仅为患者提供等候和休息，还是医院的“门面担当”，是医院综合实力的象征。

The waiting area provides waiting and rest services for patients upon admission, and is generally located in the lobby or near charging or registration areas. As the first contact for patients upon admission and waiting, it not only provides them with waiting and rest, but also serves as a "facade responsibility" for the hospital and a symbol of its comprehensive strength.

医院人流量大，家具使用频繁，除了对家具的耐用程度有了较高的要求外，设计分区也要合理。“去繁从简”的理念打造产品造型，整体可自由组合设计，使用者感到和谐舒适，得到较好的放松和休息、更快地康复。

Hospitals have a large pedestrian flow and frequent use of furniture. In addition to high requirements for the durability of furniture, the design of partitions should also be reasonable. The concept of "reducing complexity and simplifying" creates a product design that can be freely combined, making users feel harmonious and comfortable, receiving better relaxation and rest, and faster recovery.

Harmonious doctor-patient interaction

## 检查、诊室

CONSULTING ROOM, EXAMINATION ROOM

检查、诊室是医院和患者直接交流、初步检查及诊断，并完成诊察记录的场所，患者希望能够得到明确的诊断结果和满意的治疗方案，应营造亲切宜人并相对私密的诊疗环境。诊室相对于候诊区属于小空间、安静区。诊桌、患者椅、医生座椅、洗手柜台、治疗床等家具配置与设计应优先考虑医生以最短路径完成诊、查，使医生的工作更高效。

Examination and consultation rooms are places where hospitals and patients directly communicate, conduct preliminary examinations and diagnoses, and complete diagnosis records. Patients hope to receive clear diagnostic results and satisfactory treatment plans, and should create a friendly, pleasant, and relatively private diagnosis and treatment environment. The consultation room belongs to a small and quiet area relative to the waiting area. The configuration and design of furniture such as diagnosis tables, patient chairs, doctor seats, hand washing counters, and treatment beds should prioritize doctors completing diagnosis and examination through the shortest path to make their work more efficient.

医生椅采用圆弧形扶手设计，可避免扶手挂医生白大褂的情况，且更结实耐用。另坐垫和靠背均采用专业级医疗用皮革，抑菌、易清洁。

The doctor's chair adopts an arc shaped armrest design, which can avoid hanging the doctor's white coat on the armrest and is more durable and sturdy. In addition, the seat cushion and backrest are made of professional medical leather, which is antibacterial and easy to clean.

座椅整体按照人体工学原理设计，提供良好的腰背支撑，缓解长时间工作带来的疲劳。坐垫和靠背的设计符合人体曲线，提供舒适的坐感，提高医护人员的工作效率和舒适度。座椅和靠背均使用专业医用皮革，具有出色的耐磨性和抗菌性能。椅子的设计风格简约现代，外观大方得体，能够与医院的整体环境相融合。其优雅的外观不仅提升了医院的整体形象，还为医生的工作空间增添了一份专业与舒适。

The whole seat is designed according to the ergonomic principle, providing good support for the waist and back, and alleviating the fatigue brought by long hours of work. The cushion and backrest are designed to conform to the curve of the human body, providing a comfortable feeling of sitting and improving the work efficiency and comfort of medical staff. The seat and backrest are made of professional medical leather with excellent wear resistance and antibacterial properties. The design style of the chair is simple and modern, and the appearance is elegant and decent, which can be integrated with the overall environment of the hospital. Its elegant appearance not only enhances the overall image of the hospital, but also adds a professionalism and comfort to the doctor's workspace.

蓝色是强生命力的象征，符合医院主题，寓意帮助病人早日摆脱疾病痛苦、恢复健康，以满血复活的状态投入到新的生活、工作、学习中去。蓝色也能强化整体空间视觉感，营造自然平静的就医环境。

Blue is a symbol of strong vitality, in line with the theme of the hospital, symbolizing helping patients get rid of disease pain and recover their health as soon as possible, and immersing themselves in a new life, work, and study with a state of full blood resurrection.

Blue can also enhance the overall visual sense of the space and create a natural and peaceful medical environment.

## VIP 病房接待及陪护组合 VIP ward reception and accompanying combination

LJ-FY0009  
海星

双位沙发兼具接待和陪护功能，收起时作为接待沙发使用，有陪护需要时可拉开作为陪护床使用，操作简便实用，将医院有限的空间利用发挥到极致；另搭配单人位和茶几，更加温馨，适用于VIP病房、月子中心等。

The dual seat sofa has both reception and accompanying functions. When folded up, it can be used as a reception sofa, and when there is a need for accompanying care, it can be opened to serve as a nursing bed. The operation is simple and practical, and the limited space in the hospital is maximized; Also paired with a single seat and coffee table, it is more cozy and suitable for VIP wards, maternity centers, etc.

## 病房 (VIP、单间、多人间、特殊病房)

WARD (VIP, SINGLE ROOM, MULTI ROOM, SPECIAL WARD)

病房家具的设计宗旨是最大限度地满足医疗工作的需要。陪护沙发除满足基本坐、卧、倚靠、储物等功能外，同时考虑便于搬运、折叠等功能，建立以患者为中心的温馨、舒适的病房环境。

The design purpose of ward furniture is to meet the needs of medical work to the maximum extent possible. The accompanying sofa not only meets the basic functions of sitting, lying, leaning, and storage, but also considers the convenience of transportation, folding, and other functions to establish a warm and comfortable ward environment centered around the patient.

### RECEPTION AND ACCOMPANYING

LJ-FY0009

## VIP 病房康复助起沙发 VIP Ward rehabilitation Assistance sofa

LJ-FY0100

### 针对特行动不便患者设计

Designed for patients with limited mobility

1、平躺状态，可满足患者康复休闲活动需求。

1. Lying flat can meet the needs of patients for rehabilitation and leisure activities.

2、零重力形态，头部较低形成倒睡姿态，可缓解头部供血不足的情况。

2. Zero gravity form, with a lower head forming a sleeping posture, can alleviate the situation of insufficient blood supply to the head.

3、助起形态（前低后高），此形态便于行动不便患者需要起身。

3. The assist form (low in front and high in back) is convenient for patients with mobility difficulties to get up.

4、配置手持可伸缩控制器，任意角度均可轻松操作。

4. Equipped with a handheld retractable controller, it can be easily operated from any angle.

5、配置独立刹车脚轮，可根据实际应用场景选择解锁或者锁定，便于移动。

5. Equipped with independent brake casters, it can be unlocked or locked according to actual application scenarios, making it easy to move.

### 哺乳椅 Breastfeeding chair

哺乳椅按照人体工学原理设计，具有符合人体曲线的靠背和坐垫，提供良好的背部和腰部支撑。高靠背设计可以支撑母亲的头部和颈部，缓解长时间哺乳带来的疲劳。配有轻柔的摇动功能，帮助安抚婴儿入睡。这一功能不仅有助于增强母婴之间的情感联系，还能帮助母亲在哺乳时更放松。宽大且柔软的扶手为母亲提供了一个舒适的手臂支撑，减少了长时间抱婴儿带来的手臂疲劳。其现代感和功能性使其不仅适合家庭使用，也适合医院、母婴室等公共场所。

The nursing chair is designed in accordance with ergonomic principles and has a backrest and cushion that conform to the human body curve to provide good back and waist support. The high back design can support the mother's head and neck, relieving fatigue caused by prolonged breastfeeding. It is equipped with a gentle rocking function to help soothe the baby to sleep. This function not only helps to strengthen the emotional connection between mother and baby, but also helps the mother to be more relaxed while breastfeeding. The wide and soft armrests provide a comfortable arm support for the mother and reduce arm fatigue caused by holding the baby for a long time. Its modern feel and functionality make it not only suitable for family use, but also suitable for public places such as hospitals and mother and baby rooms.

### 妇科等候椅 Gynecological waiting chair

座椅和靠背采用高密度泡沫填充，外覆优质的皮革，确保了良好的舒适度和支撑力。软包材质的选择能够有效缓解长时间等候带来的疲劳感，为女性患者提供更为贴心的呵护。座椅的颜色选择温馨柔和的色调，旨在为女性患者营造一个舒缓和放松的环境。色彩的搭配不仅提升了等候区的整体美感，还能在一定程度上缓解患者的紧张情绪。

The seat and backrest are filled with high-density foam and covered with high-quality leather, ensuring good comfort and support. The choice of soft bag material can effectively alleviate the fatigue caused by long waiting time, and provide more intimate care for female patients. The color of the chair is chosen in warm and soft tones, aiming to create a soothing and relaxing environment for female patients. The collocation of colors not only enhances the overall beauty of the waiting area, but also relieves the tension of patients to a certain extent.

LJ-FY0123

### 单人等候椅 Single waiting chair

座椅采用高密度泡沫填充的圆润软包设计，能够有效减轻患者在等待过程中长时间坐立的疲劳感。按照人体工学原理设计，贴合人体曲线，提供良好的腰背支撑，确保患者在等待过程中保持舒适的坐姿，有效减轻久坐带来的不适感。增强患者的隐私保护，椅子设计了两侧带有隐蔽性的挡板。减少了患者之间的相互干扰，也增加了患者的安全感和舒适感，与椅子的整体设计完美融合。款椅子还可以作为会议椅使用。其设计注重舒适性和稳固，适合长时间的会议使用。

The chair is designed with a round soft bag filled with high-density foam, which can effectively reduce the fatigue of patients sitting and standing for a long time during the waiting process. Designed according to the ergonomic principle, it fits the human curve, provides good lumbar and back support, ensures that patients maintain a comfortable sitting position during the waiting process, and effectively reduces the discomfort caused by sitting for a long time. To enhance patient privacy, the chair is designed with concealed baffles on both sides. It reduces the mutual interference between patients, also increases the sense of security and comfort of patients, and perfectly integrates with the overall design of the chair. This chair can also be used as meeting chair. Designed for comfort and stability, it is suitable for long meetings.

## 儿科 PEDIATRICS

儿科诊室设计应针对儿童心理特点，既新意又安全。引入国际儿童医院去医院化理念，体现活泼、健康、如家温暖的儿童文化视觉。沉静的马卡龙蓝搭配阳光触感的细腻黄色打造温馨舒适的空间氛围；卡通元素的造型，增加彩绘空间，使空间在视觉上得以充实，环境变得活跃，从而增加孩子的信任感，减少恐惧感。

The design of pediatric consultation rooms should be tailored to the psychological characteristics of children, both innovative and safe. Introducing the concept of international children's hospital de hospital, reflecting a lively, healthy, and warm children's cultural vision. The serene Makaron blue paired with the delicate yellow touch of sunlight creates a warm and comfortable spatial atmosphere; The design of cartoon elements adds color drawing space, making the space visually enriched and the environment more active, thereby increasing children's trust and reducing fear.

### 儿科候诊空间 Pediatric waiting space

设计坚持以人为本的理念，根据人机工程学设计符合儿童身高的尺寸。通过色彩、造型等一系列装饰手段在保持完善的医疗功能的同时设计出活泼欢快、符合儿童心理的病房。

The design adheres to the concept of putting people first and designs dimensions that meet the height of children based on ergonomics. By using a series of decorative methods such as color and shape, while maintaining complete medical functions, a lively and cheerful ward that conforms to children's psychology is designed.

### 儿科活动区 Pediatric activity area

无障碍设计保障儿童安全性，丰富的造型及色彩搭配营造活泼的候诊空间，缓解儿童的不适情绪。  
不同尺寸及造型同时满足儿童及陪同家长的候诊需求。

Accessible design ensures children's safety, and rich styling and color combinations create a lively waiting space to alleviate children's discomfort.  
Different sizes and shapes meet the waiting needs of both children and accompanying parents.

公司拥有完善的服务体系。可为客户提供全方位的销售前、售中、售后服务。

We have a complete service system and can provide customers with a full range of pre-sales, sales and after-sales services.

## 安全环保

Safety and Environmental Protection

### 1. 污染区和洁净区分割设计

从功能划分设计上考虑洁、污物品的层次分类，强调防止交叉感染，从根本上为用户提供安全清洁的使用环境。

### 2. 治疗类家具边角圆角处理

家具的传统直角进行圆角处理可以减少不必要的意外伤害，扶手端头的曲面处理符合人轻扶时的手心曲线，靠背也会做成和人体脊髓相似的曲线。这些虽然看起来和圆角化没有很大关系，但更像是圆角空间化的延伸，功能上也是为了缓冲人体接触，大大提升安全性。

1. The segmentation design of contaminated area and unclean area take the hierarchical classification of clean and dirty items from functional division into consideration, emphasizing the prevention of cross-infection, providing users with safe and clean environment fundamentally.

### 2. Round corner treatment of therapeutic furniture

The round corner treatment for traditional furniture can reduce unnecessary accidental injury, the curved surface treatment of handrail ends in accord with palm curve when a person holding lightly, and the backrest will be made into similar curve with human spine. These are extension of round corner spatialization, to cushion human contact and enhance safety.

选用高标准环保材质，确保产品绿色环保。  
Use high-standard environmental protection material to ensure the green product.

- 选用电解钢板材质，无需酸洗磷化处理。
- 可回收利用，低消耗，无污染。
- 减少使用木质材料，欧标 E0 级人造板。
- Use high-standard environmental protection material to ensure the green product. Use electrolytic steel plate material, no need for pickling and phosphating treatment.
- Recyclable, low consumption and non-pollution.
- Reduce the use of wood material, European standard E0 grade artificial board.

建设安心舒适的现代医院，创建和谐便利的医患交流空间。

Build safe and comfortable modern hospital, create harmonious and convenient space for doctor-patient communication.

## 以人为本

People Oriented

### 1. 家具设计符合人体工程学

医院家具必须要满足人性化的要求，人性化要求的第一步是要进行人体工学，设计须便于医生、患者使用。医院家具的人性化必须要符合医生和患者的使用需求。譬如护士站的边台设计要根据中国女性的平均身高来设计；出诊医生的座椅设计也必须考虑人体工学设计，座椅高度可以上下调节，坐面可以实现前后的调节，座椅靠背和坐面材料要具有较好的透气性等；柜类高度便于拿取。

### 2. 无障碍设计、圆边圆角处理

医院家具无障碍设计关注和重视残疾人、老年人等弱势群体的特殊需求，并非专为满足使用者的心理需求，还要为用户提供最大可能的方便。

### 1. Furniture design conforms to ergonomics

Hospital furniture must meet the requirements of humanization, to achieve this, the first step is to ensure the design will be easy for doctors and patients to use. For example, the side table design of nursing station should be based on average height of Chinese women; The seat design of doctor must consider the ergonomics, the seat height can be adjusted up and down, the seat surface can be adjusted back and forth, the material of seat back and surface with better permeability; The cabinet height can be easy to take.

### 2. Barrier-free design, round edge and round corner

The barrier-free design of hospital furniture pays attention to special requirements of vulnerable groups, as the disabled and the elderly, not just to meet their psychological needs, also want to provide users with the highest possible convenience.

## ➤ Medical Guide Station

导医台

医院导医台是体现医院或者医疗机构形象和档次的门户所在，要达到亲切优雅的概念，导医台设计不仅展示一个医院的实力，又起到人际交往、商业礼仪、形象战略等诸多方面的重要作用，而医患之间的第一印象就从导医台开始。凹凸设计，方便轮椅进入，贴近接待台，方便填单、沟通交流，拉近双方距离，融洽又和谐。

The hospital guide station is the gateway to reflect the image and grade of a hospital or medical institution.

To achieve the concept of cordiality and elegance, the design of medical guide platform not only shows the strength of a hospital.

It also plays an important role in interpersonal communication, business etiquette and image strategy.

And the first impression between doctors and patients starts from the guide Station.

Concave convex design, convenient wheelchair access, close to the reception desk, convenient to fill in the form

Communication and communication can shorten the distance between the two sides, which is harmonious and harmonious.

## > Medical Guide Station 导医台

推荐可选颜色

Recommended colors

设计说明：

导医台的设计需满足以下五大主要功能对使用的需求：

- 一、医患沟通平台 病患接待、接受问询、就医指引、流程说明、注意事项。
- 二、病患就医平台 协助年老体弱者病人挂号、送诊。
- 三、医护工作平台 资料归类存放、信息化工作站。
- 四、健康宣传平台 健康知识、诊疗常规、药物手册、检验手册、医学信息。
- 五、形象展示平台 整个医院环境协调统一，又富于变化。

Design Description:

The design of the medical guide platform should meet the following five main functions for use:

- 1、 Doctor patient communication platform: patient reception, consultation, medical guidance, process description and precautions.
- 2、 The patient consultation platform helps the elderly and weak patients to register and send for treatment. A kind of
- 3、 Medical work platform data classified storage, information workstation.
- 4、 Health information platform health knowledge, diagnosis and treatment routine, drug manual, test manual, medical information.
- 5、 The image display platform and the whole hospital environment are coordinated and unified, and rich in changes.

## > Nurse Station

护士站

护士站 Nurse Station

护士站不仅显示一个医院的实力，起到人际交往、商业礼仪、形象战略等诸多方面的重要作用，而医患之间的第一印象就从护士站开始。

The nurse station not only shows the strength of a hospital, but also plays an important role in interpersonal communication, business etiquette, image warfare, etc., and the first impression between doctors and patients starts from the nurse station.

## > Nurse Station

护士站

随着社会的不断发展、医院医疗机构的不断进步，人们对医院环境医院空间的要求也是越来越高，在这种形势下，护士站和导医台也逐渐在医院综合装修中脱离出来，成为医院软包装的重要的一环。现代的护士站和导医台通过专业化的设计和工业化流水线的生产，使得医院空间得到了质的飞跃。为了打造医院的形象，量身定做护士站是必不可少的。

护士站的功能特殊繁多，其不仅需要承担接待患者、问询患者、分流患者、患者填单的功能，其还是医护人员主要的工作休息的区域，所以在护士站的功能性设计方面，将医院的内部环境和医院整体的色彩风格相结合。

With the continuous development of society and the continuous progress of hospital medical institutions, people's requirements for hospital environment and hospital space are also higher and higher.

In this situation, the nurse station and medical guide station are gradually separated from the hospital comprehensive decoration, and become an important part of the hospital soft packaging. Modern nurse station and medical guide station have made a qualitative leap in hospital space through professional design and industrialized production line. It is necessary to tailor the image of the hospital.

The functions of the nurse station are special and various, which not only need to undertake the functions of receiving patients, inquiring patients, diverting patients and filing in forms, but also the main work and rest area of hospital staff.

Therefore, in the functional design of the nurse station, the internal environment of the hospital and the overall color style of the hospital are combined.

> Nurse Station  
护士站

新颖的现代曲线设计，适用于医院门诊大厅、护士站。

如医院大厅中央服务台、咨询台。

The novel modern curve design is suitable for hospital outpatient hall and nurse station.

Such as the central service desk in the hospital hall and the information desk.

设计说明：

医院护士站不仅承担病患接待、问询、分流填单等功能，

还是医护人员主要的工作空间，护士站的功能设计跟医院内部环境相结合。

通过提供医用手具的设计、生产、安装等一站式的服务给患者及医务人员营造一个温馨舒适的环境。

大厅护士站结合我国传统中医文化，以人为本，精选木纹饰面，

让空间更加清新自然，显得沉稳、大气、简洁、富有人文气息。

Design Description:

The hospital nurse station not only undertakes the functions of patient reception, inquiry, triage and filling in forms,

It is also the main working space for medical staff. The functional design of nurse station is combined with the internal environment of the hospital.

By providing one-stop service such as design, production and installation of medical furniture, a warm and comfortable environment is created for patients and medical staff.

The nurse station in the hall combines the traditional Chinese medicine culture of our country, takes people as the center, selects the wood to compare the veneer,

Let the space more fresh and natural, appear calm, atmospheric, concise, full of humanistic flavor.

> Maternal And Child  
Nurse Station

妇幼护士站

## > Maternal And Child Nurse Station

### 妇幼护士站

妇幼医院主要是服务孕产妇、儿童和妇女，在妇幼医院护士站设计定制时，不仅要确保该医疗家具的使用功能，还要注重环境色彩塑造和氛围的营造，而导诊台、护士站等家具的色彩搭配，作为妇幼医院设计中的一项重点内容，也越来越受到大家的重视。

色彩对患者、陪护者、医护人员都有着重要的意义，是现代妇幼医院设计的一个重要元素。通过不同的色彩搭配来区分各个功能区域，给人带来不同的就医体验。

Maternal and child hospital is mainly to serve pregnant women, children and women. When designing and customizing the nurse station in MCH, we should not only ensure the use function of the medical furniture, but also pay attention to the environmental color shaping and atmosphere building. As a key content in the design of MCH, the color matching of furniture such as guide desk and nurse station has been paid more and more attention.

Color is of great significance to patients, caregivers and medical staff. It is an important element of modern maternal and child hospital design. Through different color matching to distinguish each functional area, bring different medical experience.

## > TCM Nurse Station

中医护士站

我们在护士站的设计，既追求功能上的完善，也充分满足医护人员高效、便捷、环保、舒适、安全的要求，更融入了行业领先的“智慧医疗”系统的设计理念。

The design of our nurse station not only pursues the perfection of functions, but also fully meets the requirements of medical staff for high efficiency, convenience, environmental protection, comfort and safety, but also integrates the design concept of the industry-leading Intelligent Medical system.

> **Nurse Station Series**

护士站系列

> Infusion Area  
输液区

随着诊疗生活水平的不断提高，医院座椅也逐渐由简单乘坐需求的座椅，朝向多功能、舒适、安全、环保等方向发展，让患者无论是生理还是心理都能得到更好的照顾。

With the continuous improvement of the living standard of diagnosis and treatment, hospital seats are gradually developed from simple seats to multifunctional, comfortable, safe and environmental protection, so that patients can get better care both physically and psychologically.

## > Infusion Area For Children

儿童输液区

输液单元是用于急诊、门诊输液的治疗单元，实际设计时可多单元套用，需与皮肤科注射室、护士站、输液配剂室临近。儿科输液的产品设计尤为重要，考虑到患者的身份特殊性，针对产品的颜色搭配及人性化设计更加注重小朋友的体验，缓解小朋友检查时的害怕心理。设计时需注意座椅间距，基本满足治疗车通过、护士静脉注射等操作所需空间。

Infusion unit is a treatment unit for emergency and outpatient transfusion. It can be used in multiple units in actual design, and it should be close to skin test and intramuscular injection room, nurse station and infusion preparation room. The product design of pediatric infusion is particularly important. Considering the special identity of patients, the color matching and humanized design of the products pay more attention to the children's experience, so as to alleviate the children's fear during the examination. The design should pay attention to the distance between the seats, which can basically meet the space required for the operation of the treatment vehicle passing through and intravenous injection of nurses.

## > Public Rest Area

公共休息区

随着诊疗生活水平的不断提高，医院座椅也逐渐由简单乘坐需求的座椅，朝向多功能、舒适、安全、环保等方向发展，让患者无论是生理还是心理都能得到更好的照顾。

With the continuous improvement of the living standard of diagnosis and treatment, hospital seats are gradually developed from simple seats to multifunctional, comfortable, safe and environmental protection, so that patients can get better care both physically and psychologically.

治疗室

### 设计说明：

柜体采用电解钢板，台面采用医疗专用复合亚克力制作，易清洁，抗污垢、耐冲击、耐高温以及具有阻燃性，无毒无放射性，符合医院等高标准的环境卫生要求。

根据医院特定的空间，吸取现代化医院的设计元素，依着经济与实用性的设计概念，根据不同的患者人群，营造一个方便、安静、祥和、清新、淡雅和温馨的就医环境。

优秀的团队，造就优秀的产品。造型简练、比例匀称、结构严谨、做工精细。多层面、多层次、多元化的整体规划，以及搭配恰当的色彩和实用的功能，从内而外给人一种与众不同的感觉。

台面有人造石、不锈钢和理化板等材质，根据用户要求可任意选择。

### Design Description:

The cabinet body is made of Electrolytic steel plate, and the table top is made of medical special composite acrylic. It is easy to clean, dirt resistant, impact resistant, high-temperature resistant, flame retardant, non-toxic and non-toxic, which meets the requirements of high-level environmental sanitation such as hospitals.

The hospital should be designed according to the new concept of quiet, convenient and convenient for patients.

Excellent team, create excellent products, concise modeling, proportional, It has strict structure and fine workmanship. The multi-level and diversified overall planning, as well as the matching of appropriate colors and practical functions, give people a different feeling from the inside out.

The table top has three materials: artificial stone, stainless steel and physical and chemical board, which can be selected at will according to user requirements.

## > Disposal Room

处置室

治疗柜主要用于医院的配药室、治疗室、处置室等。从功能划分设计上就考虑了洁、污物品的层次分类，强调防止交叉感染，从根本上为使用者提供安全清洁的使用环境。在设计上，充分挖掘了吊柜的空间利用率，使其能放入更多药物，提高药物的储存率和使用率。并且医用吊柜内部有不同的间隔功能，防止药物等物品交叉感染，保持安全清洁的环境。

The treatment cabinet is mainly used in the dispensing room, treatment room, disposal room, etc. of the hospital. In terms of functional division design, the hierarchical classification of clean and dirty items is considered, emphasizing the prevention of cross-infection, and fundamentally providing users with a safe and clean environment. In terms of design, the space utilization rate of the hanging cabinet is fully exploited, so that more medicines can be put in, and the storage rate and utilization rate of medicines are improved. Moreover, there are different partition functions inside the medical wall cabinet to prevent cross-infection of drugs and other items and maintain a safe and clean environment.

## > Disposal Room

处置室

## > Treatment Room

治疗室

治疗室、处置室用于医疗处置操作，如：换药、消炎、包扎等。患者自己或在其他人帮助下进入治疗室。

医生与护士共同进行工作，根据需要让患者坐位、卧位或取特殊体位。

The treatment room and disposal room are used for medical treatment, such as dressing change, anti-inflammatory, dressing, etc.

The patient enters the treatment room himself or with the help of others.

Doctors or nurses work together to make patients sit, lie or take special positions according to their needs.

## > Laboratory

### 实验室

实验室实验台具有结构合理、外形美观、操作简单、安全可靠等特点，确保了实验人员的安全健康，也保障了实验室的舒适环保。实验台是实验室必不可少的实验装备之一。

The laboratory bench has the characteristics of reasonable structure, beautiful appearance, simple operation, safety and reliability, which ensures the safety and health of the experimenters and the comfort and environmental protection of the laboratory. The laboratory bench is one of the indispensable experimental equipment in the laboratory.

诊疗室

诊疗室是医生与患者直接交流、初步检查、初步诊断，并完成诊查记录的场所。  
在诊室完成的医疗行为、设备和操作型器具，一般为一医一患，需要一定的隔音隔视隐私保护要求。

The diagnosis and treatment room is the doctor and the patient direct communication, the preliminary examination, the preliminary diagnosis,  
The place where the examination records are completed.  
Medical behaviors, equipment and operational instruments completed in the clinic,  
Generally, there is one doctor and one patient, which requires a certain amount of activity space,  
It needs certain privacy requirements of sound insulation and vision isolation.

## > Clinic

### 诊疗室

诊疗室的选择和布置：

- 1、舒适和实用；
  - 2、不会因诊疗室的设置而使病人产生对治疗的反感。
- 良好的诊疗室设置可以帮助医生更好的了解病人的需求。

Selection and arrangement of clinic:

1. Comfortable and practical
2. The setting of the clinic will not make the patients feel disgusted with the treatment.

A good clinic setting can help doctors better understand the needs of patients.

人性化、专业化、现代化，这是赛福德医疗家具一直以来的实际理念。从绿色环保、以人为本、舒适性的原则入手，进而对每一个细节、每一种材料，包括表面处理、人的触觉、整个起身角度，都进行了深入研究，只为给医护患者提供一个安全舒适的诊断场所。

Humanization, specialization and modernization are the practical ideas of saiford medical furniture.

From the green environmental protection, people-oriented, comfortable principle, and then to every detail, every material.

Including the surface treatment, human touch, the whole stand up angle, have been in-depth research, only to provide a safe and comfortable diagnosis place for medical patients.

# > Gynecology Clinic

妇科诊室

对于妇产科诊室的设计，应围绕着医生和患者的感受及真实需求，确保诊室功能的实用性和诊室的舒适性。  
 妇科诊室内场所的形状和色彩有一种奇妙的力量，能在默默之中支配患者的心。  
 对诊室的环境建设，可适当加入一点色彩和造型的创新运用，塑造积极温馨的医疗环境。

The design of Obstetrics and gynecology clinics should focus on the feelings and real needs of doctors and patients, so as to ensure the practicability of the function and the comfort of the clinic.

The shape and color of indoor places in gynecological clinics have a wonderful power, which can control the heart of patients in silence. For the environmental construction of the clinic, we can appropriately add some innovative use of color and shape to create a positive and medical environment.

## > Examination Bed Series

诊断床、诊查床系列

型号 Model: **SFD-H01**  
名称 Name: 诊查床

Examination Bed  
规格 Dimension: L1900\*D600\*H650mm  
△ 主体优质碳素结构钢制作 △ Bed frame made of carbon steel plate  
△ 抗菌静电粉末喷涂 △ Electrostation sprayed  
△ 高仿皮 + 高弹海绵床垫 △ High density PU foam with leatherette cover mattress

型号 Model: **SFD-H02**  
名称 Name: 起背诊查床

Examination Bed  
规格 Dimension: L1900\*D600\*H650mm  
△ 主体优质碳素结构钢制作 △ Bed frame made of carbon steel plate  
△ 抗菌静电粉末喷涂 △ Electrostation sprayed  
△ 高仿皮 + 高弹海绵床垫 △ High density PU foam with leatherette cover mattress

型号 Model: **SFD-H05**  
名称 Name: 按摩床

Massage Bed  
规格 Dimension: L1900\*D600\*H650mm  
△ 主体优质碳素结构钢制作 △ Bed frame made of carbon steel plate  
△ 抗菌静电粉末喷涂 △ Electrostation sprayed  
△ 高仿皮 + 高弹海绵床垫 △ High density PU foam with leatherette cover mattress

型号 Model: **SFD-H06**  
名称 Name: 按摩床

Massage Bed  
规格 Dimension: L1900\*D600\*H650mm  
△ 主体优质碳素结构钢制作 △ Bed frame made of carbon steel plate  
△ 抗菌静电粉末喷涂 △ Electrostation sprayed  
△ 高仿皮 + 高弹海绵床垫 △ High density PU foam with leatherette cover mattress

型号 Model: **SFD-HD02**  
名称 Name: 自动换床单诊查床  
Automatic Sheet Changing Examination Bed  
规格 Dimension: L2100\*W700\*H550-850mm  
△ 主体优质碳素结构钢制作 △ Bed frame made of carbon steel plate  
△ 抗菌静电粉末喷涂 △ Electrostation sprayed  
△ 高仿皮 + 高弹海绵床垫 △ High density PU foam with leatherette cover mattress

# > Pharmacy 西药房

医院药房是集管理、技术、经营、服务等于一体的综合性科室。药房不仅要保证提供给患者准确、质量合格的药品，而且要保证患者安全有效地使用药品，确保医疗费用更为经济合理。

Hospital pharmacy is a comprehensive department which integrates management, technology, operation and service. Pharmacies should not only provide accurate and qualified drugs to patients, but also ensure the safe and effective use of drugs by patients, so as to ensure that the medical expenses are more economical and reasonable.

医用药架特点为耐用性强、防腐蚀和防锈，  
医用药架的设计特别注重环保，  
便于医院保持干净卫生，保护药材的质量，防蛀防潮。

The medical medicine rack is characterized by strong  
durability, anti-corrosion and anti rust.

The design of medical medicine rack pays special  
attention to environmental protection,  
which is convenient for the hospital to keep clean and  
hygienic, protect the quality of medicinal materials, and  
prevent moth and moisture.

## > TCM Pharmacy

### 中药房

中药房，是每个医院所必设的科室。中药房内有药柜，按照中药的药性和类别分门别类摆放和储存；设有中药制作加工的场所；设有采购团队，负责全院各部的中药采购和供应；设有煎药室，负责全院门诊和住院病人的中药煎送工作；设有中药炮制室，负责提供高效优质的中药品种，以及中药材的处理工作。

The traditional Chinese medicine room is a necessary department in every hospital. There is a medicine cabinet in the traditional Chinese medicine room,

According to the nature and category of traditional Chinese medicine, they are arranged in different categories;

There are also places for the production and processing of traditional Chinese medicine. There are departments responsible for the procurement and supply of traditional Chinese medicine in the whole hospital; there is a decocting room, which is responsible for the decocting and delivering of Chinese medicine for outpatient and inpatients;

There is a Chinese medicine processing room, which is responsible for providing efficient and high-quality varieties of traditional Chinese medicine and the treatment of Chinese medicine.

## > Cabinet Series

柜体系列

型号 Model: **SFD-904A**  
名称 Name: 电动病理储片密集架  
Electric pathological storage rack

### 电动病理储片密集架简介：

电动病理储片密集架是专门用来存放各种病理档案的病理密集架，具有节省空间、稳固安全、保密性高、安全性高等特性。

电动病理储片密集架采用优质冷轧钢板模压成型，表面经除油、去锈、磷化等十道工序预处理。采用国际最新流行色静电喷涂，经高温塑化而成，防锈性能卓越。架体外观设计精美，线条流畅，让库房整洁美观。密集架的操作非常轻便灵活，运行平稳。密集架采用组合装配式设计，便于拆装和搬迁。每列架体设有安全限位及防倾倒装置，以保障通道内人员安全。密集架上装有锁具用于整体锁闭。各个架体之间的接触面上均装有缓冲密封胶条。顶部有防尘板，底部有防鼠装置，具有良好的防尘、防鼠、防潮和防火功能。传动机构采用精密轴承，传动灵活平稳。层板的层距可根据需要自由调整。

### Brief introduction of electric pathological storage rack:

The electric pathological storage rack is a medical record rack specially used to store various medical record files. It has the characteristics of space saving, stability and safety, high confidentiality and high security.

The electric pathological film storage rack is made of high-quality cold-rolled steel plate molding, and the surface of the cabinet is pre-treated by ten processes such as oil removal, rust removal, and phosphating etc. The latest international popular color matt electrostatic powder is plasticized at high temperature, and has excellent anti-corrosion performance.

The pathological storage racks have exquisite appearance design and smooth lines, which make the warehouse clean and beautiful, and the operation is light and flexible, stable. The pathological film storage rack adopts a combined assembly design without damage to relocation and disassembly. Each row of racks is provided with a safety limit and an anti-tilt mechanism. To ensure the safety of people in the channel. The side frame of the pathological storage rack is equipped with a lock for overall locking. There are buffers and magnetic sealing tapes on the contact surfaces between the pathological storage racks. There is a dust-proof plate on the top and a rat-proof device on the bottom. It has good dustproof, anti-rat, moisture-proof and fire-proof functions. The transmission mechanism adopts precision bearings, and the transmission is flexible and stable. The shevels distance can be adjusted flexible.

型号 Model: **SFD-902A**  
名称 Name: 切片柜  
Slide Storage Cabinet  
规格 Dimension: W515\*D480\*H1520mm

切片柜由底座和四节柜体组成。  
底座高 80mm，所用材料为 304 不锈钢板，每节柜体高 360mm，所用材料为优质冷轧钢板。  
每节柜体由九个抽屉组成，材料为优质冷轧钢板。  
柜体经模具化钣金流水线精工加工而成，耐压、强度大、抗冲击、不易变形。  
柜体表面处理采用绿色环保的医用专用无菌塑粉，经十二道工序陶瓷化喷塑而成。  
切片柜每节可存放标准玻璃切片 12600 片，每组可存放约 50000 片。

型号 Model: **SFD-902B**  
名称 Name: 蜡块柜  
Paraffin Block Cabinet  
规格 Dimension: W515\*D480\*H1520mm

蜡块柜由底座和四节柜体组成。  
底座高 80mm，所用材料为 304 不锈钢板，每节柜体高 360mm，所用材料为优质冷轧钢板。  
每节柜体由五个抽屉组成，材料为优质冷轧钢板。  
柜体经模具化钣金流水线精工加工而成，耐压、强度大、抗冲击、不易变形。  
柜体表面处理采用绿色环保的医用专用无菌塑粉，经十二道工序陶瓷化喷塑而成。  
蜡块柜每节可存放标准蜡块约 3000 块，每组可存放约 12000 块。

型号 Model: **SFD-902C**  
名称 Name: 晾片柜  
Slide Drying Cabinet  
规格 Dimension: W515\*D480\*H1520mm

晾片柜由底座和四节柜体组成。  
底座高 80mm，所用材料为 304 不锈钢板，每节柜体高 360mm，所用材料为优质冷轧钢板。  
每节柜体由五个抽屉组成，材料为优质冷轧钢板。  
柜体经模具化钣金流水线精工加工而成，耐压、强度大、抗冲击、不易变形。  
柜体表面处理采用绿色环保的医用专用无菌塑粉，经十二道工序陶瓷化喷塑而成。  
晾片柜每节可晾片约 1750 片，每组可晾片约 7000 片。

规格 Dimension: L2080\*W960\*H500mm  
△ 背部床板倾斜角度 0-75°    △ Back section lifting angle:0-75°  
△ 腿部床板倾斜角度 0-40°    △ Leg section lifting angle:0-40°

> Multifunctional Manual Hospital Bed Series

多功能手动护理床系列

型号 Model: SFD-B2110  
名称 Name: 双摇护理床  
2 Cranks Manual Bed  
规格 Dimension: L2130\*W1000\*H500mm  
△ 背部床板倾斜角度 0-75° △ Back section lifting angle:0-75°  
△ 腿部床板倾斜角度 0-40° △ Leg section lifting angle:0-40°

型号 Model: SFD-B1007A  
名称 Name: 单摇护理床  
Single Cranks Manual Bed  
规格 Dimension: L2130\*W960\*H500mm  
△ 背部床板倾斜角度 0-75° △ Back section lifting angle:0-75°

型号 Model: SFD-B1107  
名称 Name: 单摇护理床  
Single Cranks Manual Bed  
规格 Dimension: L2130\*W960\*H500mm  
△ 背部床板倾斜角度 0-75° △ Back section lifting angle:0-75°

型号 Model: SFD-B1007B  
名称 Name: 单摇护理床  
Single Cranks Manual Bed  
规格 Dimension: L2080\*W960\*H500mm  
△ 背部床板倾斜角度 0-75° △ Back section lifting angle:0-75°

型号 Model: SFD-B1107A  
名称 Name: 单摇护理床  
Single Cranks Manual Bed  
规格 Dimension: L2130\*W960\*H500mm  
△ 背部床板倾斜角度 0-75° △ Back section lifting angle:0-75°

型号 Model: SFD-B1007D  
名称 Name: 普通平床  
Flat Bed  
规格 Dimension: L2080\*W960\*H500mm

**> Home Care Bed Series**

家庭护理床系列

型号 Model: **SFD-5102**  
 名称 Name: 电动翻身护理床  
 Electric Nursing Bed  
 规格 Dimension: L2130\*W1050\*H520mm  
 △ 背部床板倾斜角度 0-75°    △ Back section lifting angle:0-75°  
 △ 背板两侧防侧滑 0-40°    △ Back section anti-slide angle:0-40°  
 △ 座板部防下滑 0-15°    △ Seat section anti-slide angle:0-15°  
 △ 腿部床板倾斜角度 -75-40°    △ Leg section lifting angle:-75-40°  
 △ 左右侧翻各 0-45°    △ Lateral turn-over angle:0-45°

型号 Model: **SFD-B3112B**  
 名称 Name: 家庭翻身护理床  
 Home Turn Over Nursing Bed  
 规格 Dimension: L2130\*W960\*H500mm  
 △ 背部床板倾斜角度 0-75°    △ Back section lifting angle:0-75°  
 △ 左右侧翻各 0-45°    △ Lateral turn-over angle:0-45°  
 △ 腿部床板倾斜角度 -75-40°    △ Leg section lifting angle:-75-40°

型号 Model: **SFD-B3112**  
 名称 Name: 家庭翻身护理床  
 Family Nursing Bed  
 规格 Dimension: L2130\*W960\*H500mm  
 △ 背部床板倾斜角度 0-75°    △ Back section lifting angle:0-75°  
 △ 左右侧翻各 0-45°    △ Lateral turn-over angle:0-45°  
 △ 腿部床板倾斜角度 -75-40°    △ Leg section lifting angle:-75-40°

型号 Model: **SFD-B3112A**  
 名称 Name: 家庭三摇升降护理床  
 Family Three Crank Nursing Bed  
 规格 Dimension: L2060\*W960\*H500-780mm  
 △ 背部床板倾斜角度 0-75°    △ Back section lifting angle:0-75°  
 △ 腿部床板倾斜角度 0-40°    △ Leg section lifting angle: 0-40°  
 △ 整床升降 500-780mm    △ Whole bed up/down:500-780mm

型号 Model: **SFD-B3113**  
 名称 Name: 家庭翻身护理床  
 Family Nursing Bed  
 规格 Dimension: L2040\*W960\*H500mm  
 △ 背部床板倾斜角度 0-75°    △ Back section lifting angle:0-75°  
 △ 左右侧翻各 0-45°    △ Lateral turn-over angle:0-45°  
 △ 腿部床板倾斜角度 -75-40°    △ Leg section lifting angle:-75-40°

型号 Model: **SFD-B2112C**  
 名称 Name: 家庭双摇护理床  
 Family 2 Cranks Nursing Bed  
 规格 Dimension: L2040\*W960\*H500mm  
 △ 腿部床板倾斜角度 0-40°    △ Leg section lifting angle: 0-40°

> **Children Bed Series**

儿童床系列

型号 Model: **SFD-F103B**  
 名称 Name: 儿童床  
 Children Bed  
 规格 Dimension: L1900\*W900\*H620/1260mm  
 △ 背部床板倾斜角度 0-65°  
 △ Back section lifting angle:0-65°

型号 Model: **SFD-F108D**  
 名称 Name: 儿童床  
 Children Bed  
 规格 Dimension: L1900\*W900\*H620mm  
 △ 背部床板倾斜角度 0-65°  
 △ Back section lifting angle:0-65°

> **Orthopedic Bed Series**

骨科牵引床系列

型号 Model: **SFD-E001**  
 名称 Name: 骨科牵引床  
 Orthopedic Traction Bed  
 规格 Dimension: L2220\*W960\*H500mm  
 △ 背部床板倾斜角度 0-75°    △ Back section lifting angle:0-75°  
 △ 腿部床板倾斜角度 0-40°    △ Leg section lifting angle: 0-40°  
 △ 可分腿调节                      △ Left & Right leg adjustable angle  
 △ 头低脚高调节角度 0-10°    △ Trendelenburg angle: 0-10°  
 △ 优质不锈钢牵引支架        △ Stainless steel traction frame

型号 Model: **SFD-E009**  
 名称 Name: 骨科牵引床  
 Orthopedic Traction Bed  
 规格 Dimension: L2080\*W900\*H500mm  
 △ 背部床板倾斜角度 0-75°    △ Back section lifting angle:0-75°  
 △ 腿部床板倾斜角度 0-40°    △ Leg section lifting angle: 0-40°  
 △ 可分腿调节                      △ Left & Right leg adjustable angle

## > Medical Bedside Cabinet series

医用床头柜系列

型号 Model: **SFD-801**  
 名称 Name: ABS 床头柜  
 ABS Bedside Cabinet  
 规格 Dimension: W480\*D480\*H760mm  
 W450\*D420\*H720mm

型号 Model: **SFD-802**  
 名称 Name: ABS 床头柜  
 ABS Bedside Cabinet  
 规格 Dimension: W480\*D480\*H760mm

型号 Model: **SFD-805**  
 名称 Name: ABS 床头柜  
 ABS Bedside Cabinet  
 规格 Dimension: W450\*D460\*H800mm

## > Other Products

其他产品

型号 Model: **SFD-814**  
 名称 Name: 陪护床头柜  
 Accompany Bedside Cabinet  
 规格 Dimension: W600\*D530\*H750mm

型号 Model: **SFD-804**  
 名称 Name: 床头柜  
 Bedside Cabinet  
 规格 Dimension: W470\*D420\*H750mm

型号 Model: **SFD-807**  
 名称 Name: 床头柜  
 Bedside Cabinet  
 规格 Dimension: W470\*D410\*H750mm

型号 Model: **SFD-810**  
 名称 Name: 床头柜  
 Bedside Cabinet  
 规格 Dimension: W470\*D410\*H750mm

型号 Model: **SFD-995**  
 名称 Name: 不锈钢屏风  
 Stainless Steel Screen

型号 Model: **SFD-996**  
 名称 Name: 钢制屏风  
 Steel Screen

型号 Model: **SFD-813**  
 名称 Name: 不锈钢床头柜  
 Stainless Steel Bedside Cabinet  
 规格 Dimension: W470\*D410\*H750mm

型号 Model: **SFD-815**  
 名称 Name: 床头柜  
 Bedside Cabinet  
 规格 Dimension: W475\*D410\*H750mm

型号 Model: **SFD-816**  
 名称 Name: 床头柜  
 Bedside Cabinet  
 规格 Dimension: W450\*D420\*H740mm

型号 Model: **SFD-991A**  
 名称 Name: 点滴架  
 Drip Stand

型号 Model: **SFD-991B**  
 名称 Name: 点滴架  
 Drip Stand

# Environmental protection

## 安全环保

“可持续的产品研发和生产体系”一直贯穿赛福德整个企业经营思维。我们深知，地球赖以持续的资源正逐年消耗殆尽，按目前人类对资源的依赖程度下去，我们终将无材可用。所以我们在对医疗家具的选材标准上始终坚持“环保和可持续”的择优理念，在产品生产体系中严格执行 ISO 环境要求标准，减少生产过程中产生的污染排放。

“Sustainable product development and production system” has always been SAFETY Medical’s core management thinking. We are well aware that the continuous resources we rely on are being depleted year by year. According to the current degree of human dependence on resources, We will eventually have nothing to use.

Therefore, we have always adhered to the “environmental protection and sustainable” concept to select the best medical furniture.

In the system, the ISO environmental requirements and standards are strictly implemented to reduce the pollution emissions generated during the production process.
